

Aluminium, self-adhesive duct tape

MJ

Description

In HVAC system uses a self-adhesive duct tape to hold, glue, seal, and provide a beautiful view of duct connections. Duct tape MJ improves duct sealing when applied to the joint. The tape is strong enough to hold duct joint. The adhesive duct tape is made of aluminium foil - 25 microns. The tape is covered with acrylic adhesive. The duct tape is wrapped in silicone paper for easy release of the foil. The rolls of duct tape are available in two widths of 50 mm and 75 mm. Suitable for indoor and outdoor use. The surface must be dry, clean and free of grease.

Aluminium thickness: 25 microns,

Overall thickness: 60 microns,

Adhesive to metal: 15N/25mm, ASTM D3330,

Tensile Force: 40N/25mm, ASTM D 3759,

Elongation: 3.0%,

Bonding temperature: + 10 °C to + 40 °C,

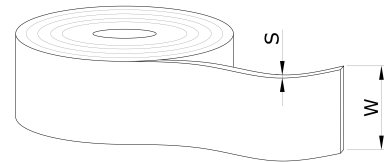

Operating temperature: -35 °C to + 120 °C.

Ordering code

Sample: MJ50 – aluminium self-adhesive duct tape 50 mm width.

Dimensions

Type	W [mm]	S [mm] (with out protective paper)	L [m/roll]	Mass [kg/roll]
MJ50	50	0,025	50	0,50
MJ75	75	0,025	50	0,70
